

Camp Grace, Roswell Rotary campers of the week - 2014

The Camp Grace program is a significant part of the 'End Human Trafficking Now' initiative. Prevention is the long term goal. With Camp Grace's year round program working with local organizations to provide weekly mentorship to each camper the individual impact is tremendous. The result is that near 100% of the Camp Grace participants graduate high school and many of those continue their education. In addition to spending a week at camp during the summer, campers are invited to back to at least three times a year for a fall festival, Christmas celebration, and a spring fling.

Camp Grace is located in centrally located in middle Georgia near the City of Roberta. The camp is exclusively for "at risk poor" children. Because of the support it receives from organizations, sponsors and individuals that see the very highly successful program's impact, the infrastructure is second to none.
